**TESTING OF LUXES NATURAL FLOOR +WALL FINISH**  
**REPORT NO. : M/19/070**

SAMPLES RECEIVED ON : 24.04.2019

DESCRIPTION OF SAMPLES RECEIVED : (a) Nos. received : 01 bag (Un - opened)  
 (b) Quantity of each bag : 20 kg  
 (c) Sampled by : Client  
 (b) \*Product name : Luxes Natural Floor + Wall Finish  
 Interior & Exterior

(\*As intimated by the bag)

TEST REQUESTED TO BE CARRIED OUT : Moh's Hardness

TEST CARRIED OUT IN ACCORDANCE WITH : SLS 1181: 1998  
 Specification for ceramic floor and wall tiles  
 Part 1: Requirements  
 Part 2: Test methods

TEST SAMPLE PREPERATION : a) \*Mixing Ratio : Powder: Water = 1kg: 175g  
 b) Sample Size : 100mm × 100mm

(\*As intimated by the Client)

CONCLUSION : Observed Moh's hardness value for finishing material prepared as per the proportion given by the client was 5. This shall be compared with the value specified the unglazed tile as per SLS 1181 standard.

Specified Moh's hardness values are as follows.

- a) Water absorption category  $\leq 10$ : Min: 6  
 b) Water absorption category  $> 10$ : Min: 5

TEST RESULTS :

Ser. No.	Moh's Hardness
1	5
2	5
3	5
4	5
